SHOW YOUR COMPETENCE

SCIENTIFIC REPORTS **ARTICLES** REPORTS

Editorial rules for publication

reinraum online offers the opportunity to publish scientific reports and articles regarding cleanrooms, companys, products, projects, awards, events, etc. free of charge (the topic is up to you).

In order to reach the full attention of the reader and to create an easy-to-read content, the following rules are recommended:

Structure of the text

- Every text needs a title (approx. six words). An interesting title is neutral and *doesn't contain any company or product name*
- Pre- and sub-headings are possible
- Every text needs a lead (not more than four sentences). A lead doesn't sum up the *content of the article; it is a teaser. In the case of an interview the lead serves to briefly introduce the person interviewed.*
- Long running texts need passages and sub-headings

Stylistic questions

- Articles have to be written in an editorial / neutral way.
- No self-praise / avoidance of superlatives.
- *Avoidance of passive voice:* «*XY has optimised the process..*» **not** «*The process has been optimised..*»
- The text should be written in the third person: «*The company XY produces sustainably.*» **not** «*We produce sustainably.*»
- Don't approach the reader directly: «*Who wants to build up a business successfully, needs strong partners.*» **not** «*If you want to build up a business successfully, you need strong partners.*»
- Numbers from one to twelve are written out, from 13 upwards numerals are to be used.
- Company & product names in capital letters as well as copyright signs etc. are to be avoided.
- Bullitpoints shouldn't be used all too often.
- We recommend using infoboxes for information that doesn't fit directly iin the article. They are especially suitalbe for keyword information, events, further information regarding the company or the person interviewed.

Pictures

- Data format: PDF, JPG, TIF
- Resolution: 300 dpi
- Format: 16x9 if possible
- Pictures always need © indications
  To avoid copyright infringements, please ensure that you hold the necessary image rights for publication. You will be held liable in the event of legal proceedings.
- Pictures have short captions
